

# SITE PLANS

City of  
**Maple Grove**

**BUILDING DEPARTMENT**

**763-494-6060**

[www.maplegrovern.gov](http://www.maplegrovern.gov)

Site plans are required as a part of the plan submittal for a permit for many building projects. Any new dwelling or addition to an existing dwelling such as a garage, deck, or room addition will require a site plan. Construction of a new detached garage will also require a site plan.

The purpose of a site plan is to show compliance with the City's Zoning Ordinance and Building Codes. It is important that the site plans be accurate, neat, and drawn to scale.

***For accuracy, site plans should be based on a survey.*** There are some surveys on file at the Maple Grove Government Center. You may wish to check with us for availability of a survey for your lot. If you do not know where your property lines are, you may need to have your lot surveyed.

It is important to know that street curbs, alleys, power lines and other utilities should not be used to determine the location of property lines. Rarely do they coincide with property lines.

Site plans should show the size of the lot, a north arrow, the location of streets and alleys, the size of each building on the lot, and the distance from ***property lines*** to each building. Property lines are not the same as sidewalk, street curbs or alleys. Be sure your site plan shows dimensions from property lines and not sidewalks, curbs, or alleys.

If you have a survey of your property, you may be able to use a copy of your survey for the site plan or use the survey to create a site plan. If you do not have a survey for your property, contact the Building Department for availability.

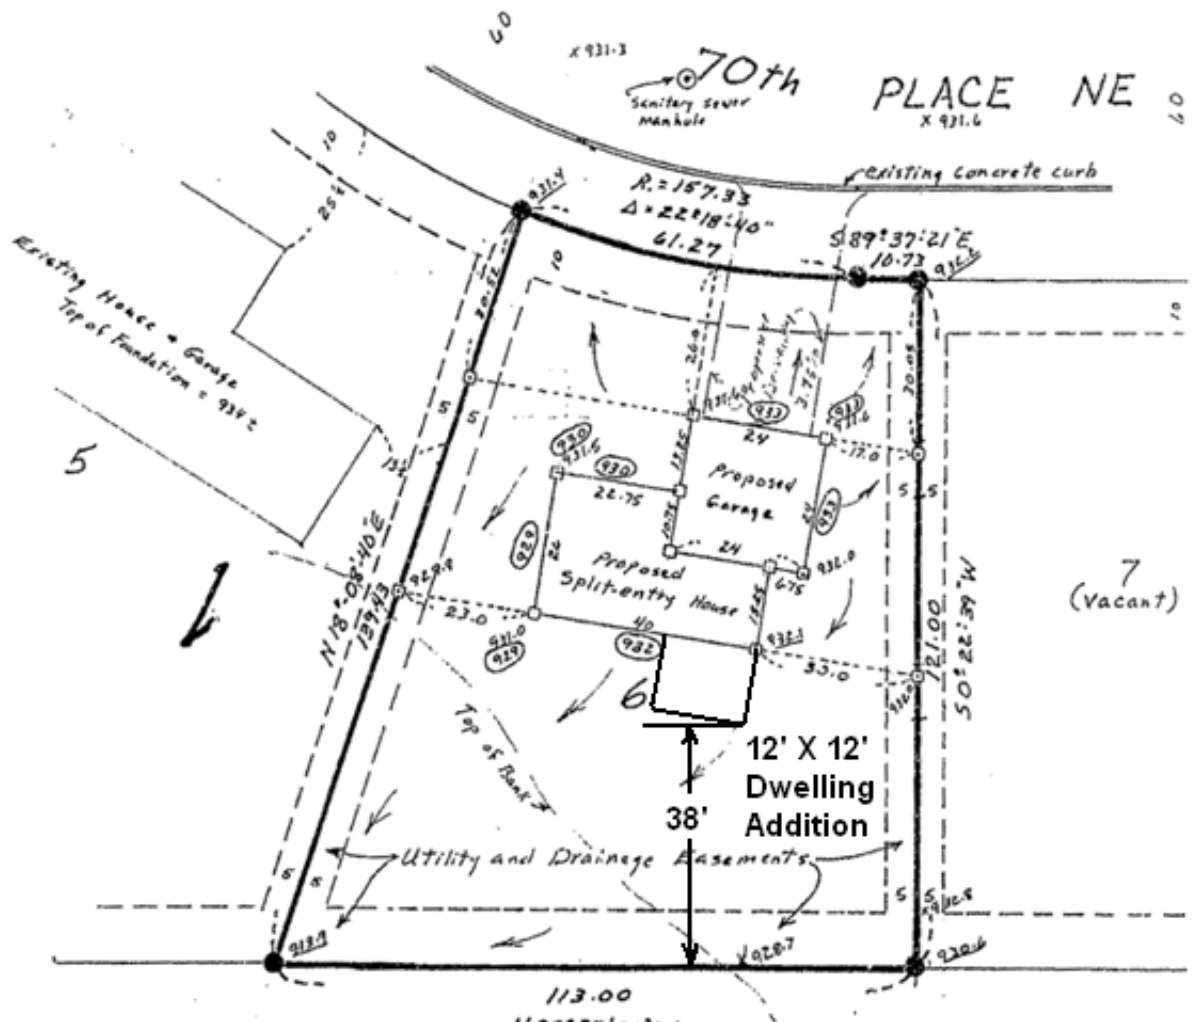

Following is an example of a site plan for an addition to the original building construction.

18999 Oakridge Circle East  
Maple Grove, MN

# ASSOCIATES SURVEYORS, INC.

CERTIFICATE OF SURVEY FOR: K Builders

DESCRIBED AS: Lot 6, Block 1, WIND 4th ADDITION, according to the recorded plat thereof, Hennepin County, Minnesota.

Benchmark: Top of first hydrant on East side of fish Lake Road NW. of I. 494

Bridge. Elevation = 936.97.  
SCALE: 1 INCH = 30 FEET.  
○ DENOTES 1/2 INCH IRON PIPE SET.  
● DENOTES FOUND IRON MONUMENT.  
BEARINGS SHOWN ARE ASSUMED.  
□ DENOTES WOOD HUB AND TAC SET.  
◻ DENOTES WOOD HUB SET.

Proposed lowest floor elev. = 929.5  
Proposed Garage floor elev. = 933.0  
Proposed Top of Foundation elev. = 933.5

x 930 Denotes existing elevation.  
x 930 Denotes existing + proposed elev.  
930 Denotes proposed elevation.
