A Healthcare Destination

Maple Grove is one of the state's top healthcare destinations. More than 160 healthcare-related businesses offer the highest quality care across all specialties as well as 4,000 jobs. Convenient access, ample parking, nearby amenities, and care provided by some of the region's preeminent medical professionals combine to create a superior healthcare experience.

Maple Grove's three comprehensive healthcare facilities include:

Maple Grove Hospital: a partnership between two of the region's most trusted names in medical care – North Memorial Health and Fairview Health Services.

An innovative source for healthcare, Maple Grove Hospital is known for its Family Birth Center.

Maple Grove Hospital also offers an Emergency Care Center, surgical and diagnostic services, and both adult and pediatric medicine. The hospital partners with primary care and specialty care clinics throughout the northwest metropolitan area.

Park Nicollet Maple Grove Clinic & Specialty Center:

provides walk-in urgent care, primary and pediatric care, and TRIA Orthopaedic and sports medicine care, along with a large variety of specialty care services, an on-site pharmacy, optical store and eye care, and a health & care store. Combined with its close proximity to the Surgery Center, as well as Rehabilitation Services, the Park Nicollet Clinic and Specialty Center offers a convenient, comprehensive approach to healthcare.

University of Minnesota Health Maple Grove Clinics:

provides experts in more than 20 medical specialties, bringing the value and innovation of academic medicine to the area.

The medical center offers primary care for both children and adults, dozens of specialty areas, a cancer center that includes infusion and radiation services, the nationally-recognized Breast Center, and partnerships with the Institute for Athletic Medicine, OB/GYN services from Fairview Clinics, and the Fairview Maple Grove Ambulatory Surgery Center.
